- Electric Line
- Flood Hazard Area
- State Regulated Wetlands

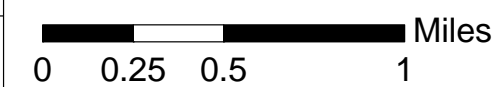

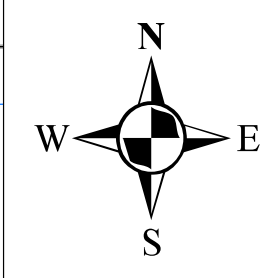

Notes:

Town of Alabama Zoning Law Section 302.

1. Where zone boundaries are shown with dimensions given, dimensions are approximate and intended to begin and/or end at centerlines of roads, natural features, municipal boundaries, centerlines of railroad rights-of-way (ROW), or Tax Map Parcel (TMP) boundaries as indicated.

2. District Boundaries have been determined at the time of adoption and/or amendments by using the most current tax maps. If a discrepancy exists the official zoning map and/or the Zoning Board of Appeals will be the final determining factor to decide the district boundaries.
